JUNE 2023

Days of Summer

So we haven't reached summer yet but I think I can see it from here. We've already had a taste of 30+ temperatures and of course the smoke and wildfires are reminding us that summer is not all about lazy days and sweet warm breezes. But even through the heat, the fires, and the bugs (let's not forget the bugs!), there is something about summer that we all long for. There is a break in routine. The days are longer but we have fewer demands on our time. We can indulge in activities reserved just for this time of year—camping, travel, gardening, fishing, swimming, campfires—the list goes on. Yes, most of us still have jobs to go to even in summer but this time of year takes us back to adventures in space, vanquishing dragons, and chasing super villains through dark city streets with friends we will always remember but whose names may now escape us.

For me, summer means books! It was weekly bike rides to the library to pick out novels to last me until then next visit. I dove into the lives of characters that got to do all the exciting things that I could only imagine! Books were my summer companions—they went to the park, to the lake, to visit relatives. They gave me an interesting place to go while grown-up did boring things like visit and drink coffee. (Why do people drink something hot in the summer anyway?)

You're never too old to visit Charlotte and Wilbur or for a walk through the 100 Acre Wood. Visit (or revisit) Narnia, Asgard, Wonderland, Middle-Earth, or Neverland. If it's been a while, this summer would be a great time to share it with someone you love who will see it for the first time.

—Your Friendly Neighbourhood Library Tech

TREX: *Touching the Sky* June 29th to July 26th—Peace Region Artists

Touching the Sky features the work of Angela Fehr, Esther Hoflick, and Elizabeth Hutchinson—three Peace Region based artists whose pieces explore embodied natural experiences.

Touching the Sky

June 29 - July 26, 2023

"Touching the Sky" features the work of Angela Fehr, Esther Hoflick, and Elizabeth Hutchinson, three Peace Region based artists whose pieces explore embodied natural experiences - the smell of rain, cellular exchanges on a micro level, complex patterns of weather and climate - and our ability to represent them through art.
